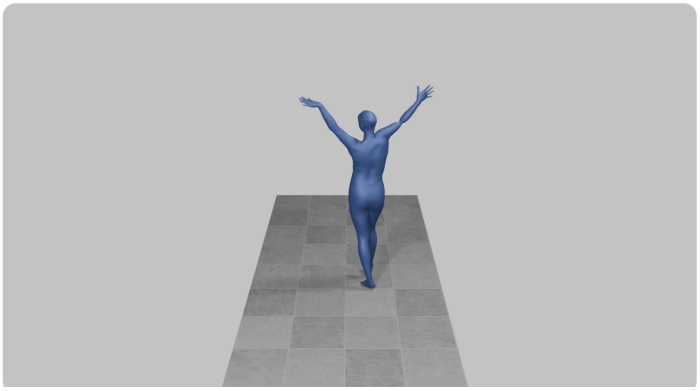
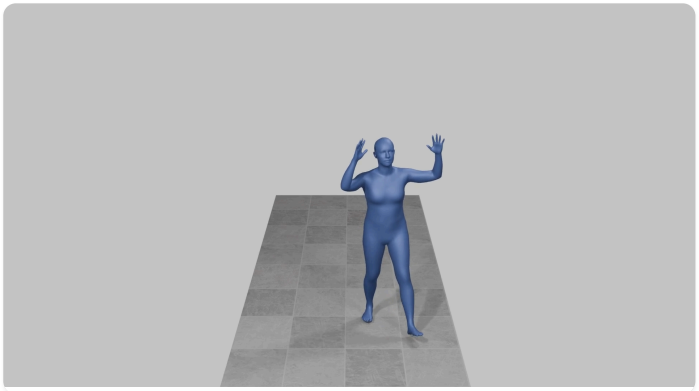
Text Description:
a person **is walking** while **swinging both arms from left to right**

Motion A



▶ Play/Pause A

Motion B



▶ Play/Pause B

⏸ Play / Pause All

1. Which motion is of higher quality?

You may consider:
- Does the motion look natural and appear like something a real person might do?
- Does the motion look jittery or not smooth?
- Does the character's contact with the ground look solid and correct?

Motion A Much Better	Motion A Slightly Better	Similar	Motion B Slightly Better	Motion B Much Better

2. Which motion better reflects the text description?

You may consider:
- How accurately does each motion match the specific verbs used in the text description?
Action details are semantic constraints, such as adverbs, direction and manner.
- Does it follow **all** of them?

Motion A Much Better	Motion A Slightly Better	Similar	Motion B Slightly Better	Motion B Much Better

3. Overall, which motion do you prefer?

- Which motion do you find more appealing?

Motion A	Same	Motion B
